

O'DONNELL'S

Washington's Busy Drug Store
904 F Street N. W.

Aunt Rebecca says

For All Weak, Run-down, Devitalized
Conditions Take Vinol.

The reason why it is so successful in building up strength and renewed vigor is because Vinol contains peptonate of iron to enrich and revitalize the blood, the nourishing properties of beef peptone and the medicinal extracts of fresh cod livers (without the oil) all combined in a delicious native wine.

Proof That Vinol Overcomes Such Conditions

Lots of cases like the following are constantly coming to our attention:

Saratoga Springs, N. Y. "For the benefit of other run-down women I want to say that I keep house. I became all run-down and played-out, I did not seem to have any life in me, and looked badly. I heard about Vinol and tried it, and must say it built me up; my strength returned so I felt like a new woman, and my friends remarked of the great change in me." Mrs. John M. Waldron, Saratoga Springs, N. Y.

OUR GUARANTEE

If Vinol fails to build up the Run-down, Weak and Debilitated, we will return your money.

For Your Cough

Hall's Cherry Expectorant is considered our best remedy for coughs, colds and hoarseness. It contains some of the best ingredients known to the medical profession for the relief of coughs and colds. It is healing and soothing to the irritated throat and bronchial tubes. And it is of special value in cases where immediate relief is needed.

U. S. Troopers March Into Mexico in Pursuit of Villa

CONTINUED FROM PAGE ONE.

move to forestall Mexican opposition to the campaign in Mexico now about to be launched by the United States army. While officials are unwilling to make what appears to be a trade or to compromise with Carranza, they are disposed to accept his suggestion as the only means of preventing the expedition to capture Villa from developing into war against all the Mexican factions.

Secretary of State Lansing last night arranged for a conference with the President as soon as the latter returns to Washington tomorrow morning from his trip down the Potomac to the Mayflower. Senator Stone, chairman of the Senate Foreign Relations Committee, also arranged to see the President tomorrow. A decision will be reached at these conferences and Carranza will be immediately notified. Meanwhile efforts will be made to suppress all news of the expedition into Mexico until the diplomatic steps are completed.

Censors Clamp on Lid.

The strictest news censorship was maintained by the War Department yesterday. Secretary Baker named Lieut. Harry Cootes, aide to General Scott, and a member of the Thirteenth Cavalry which crossed the border after Villa, as press censors.

Secretary Baker said that Gen. Funston had been given full command of the expedition against Villa. He had no news as to the size of the army Funston would send into Mexico.

Carranza Sees Light.

Carranza's proposal today was construed as an admission that he will interpose no objections to the American invasion. He can make no reference to United States decision to send an army into Mexico, but requested permission to send troops onto American soil in pursuit of Villa if the latter should again cross the border. If the United States agrees Carranza said he would agree to "due reciprocity in regard to forces of the United States crossing into Mexican territory."

It was made plain in official circles today that Carranza had given permission to cross the American border only in pursuit of Villa's bandits and then only if the United States border patrol is not able to cope with the bandits.

Chairman Hay, of the House Military Affairs Committee, had a conference with Secretary Baker yesterday afternoon. He said later he was confident the regular army would bring out Villa without the aid of the militia.

A steady stream of telegrams from the border reached the War Department during the day, but few were made public. General Funston reported

ed that 1,200 Carranza troops, using a black and white flag to distinguish them from Villistas, reached Palomas, opposite Columbus, N. Mex., in pursuit of Villa.

Funston also reported that eleven more dead Mexican bodies had been found on the Mexican side opposite Columbus, bringing the total of dead bodies found up to fifty-seven.

Will Test Aviators.

The expeditionary force into Mexico will make full use of aeroplanes in its campaign against Villa. This became known last night when the War Department received a dispatch from Gen. Funston stating that he ordered the first aeroplane squadron to report at once at Columbus, N. Mex. This squadron is now at San Antonio, Tex.

It is the first indication from the War Department of the mobilization plans of the army. It is also the first authorized statement of troop movements issued since the President gave his order to the army yesterday to "get Villa."

Consular dispatches to the State Department said that two more Americans were missing from a ranch a short distance from Columbus, N. Mex. It is feared they were killed or taken prisoners by the Villa forces attacking Columbus.

The State Department issued a warning to Americans not to enter the lathums of Tehuantepec. Consular advices from the isthmus said it was not safe for Americans there.

Garrison Praises Baker.

Former Secretary of War Garrison continued his conferences with Secretary Baker. Late in the day Mr. Garrison issued a signed statement, praising his successor. He said:

"Entering upon his duties under most trying circumstances, Secretary Baker has taken hold with a vigorous hand. Being a man of energy, courage and intelligence, he will undoubtedly fill the office with credit to himself and benefit to the country."

The War Department was deluged yesterday with offers from military organizations and individuals to volunteer for service in Mexico. Mr. Baker said that while the War Department was gratified at this demonstration of patriotism, he did not think there was necessity at this time for a larger force than Gen. Funston has at present. Army strategists are not so certain that the small force Gen. Funston has at his command will be sufficient to bring out Villa.

State Militia Ready For Field Service If Needed

Following are messages received from governors, giving their estimates of the number of Guardsmen their States could furnish for use in Mexico:

Topeka, Kans., March 11.—Kansas can furnish two regiments, two additional companies of infantry, one battery artillery and one signal corps, all fully equipped and ready for service. Arthur Capper, governor.

Springfield, Ill., March 11.—Upon call of the President, Illinois will mobilize within three days eight regiments of infantry, one regiment of cavalry, one signal corps and two batteries of artillery, fully armed with modern Federal equipment. E. F. Dunne, governor.

Richmond, Va., March 11.—The adjutant general reports that Virginia could put in the field at once 225 officers and 3,200 enlisted men, fully armed and equipped. H. C. Stuart, governor.

Columbus, Ohio, March 11.—Present strength of National Guard 8,000 men equipped on hand. Frank B. Willis, governor.

Nashville, Tenn., March 11.—Fifteen hundred equipped men can be furnished by Tennessee. Tom C. Rye, governor.

Indianapolis, Ind., March 11.—Three thousand immediately, 6,000 in ten days; equipment on hand for 3,000. Samuel M. Ralston, governor.

New York Has 15,000 Ready.

Albany, N. Y., March 11.—The New York State National Guard can furnish 15,000 men at first call, leaving necessary troops at home within the State for protection and recruiting up to full war strength.—Charles S. Whitman, governor.

Madison, Wis., March 11.—Wisconsin can put into the field 3,200 officers and men fully equipped.—E. L. Phillips, governor.

Baton Rouge, La., March 11.—Organized strength at present, 1,100 men, fully armed and equipped for field service.—L. E. Hall, governor.

Salem, Ore., March 11.—Oregon National Guard is fully equipped and would be ready promptly in accordance with the number of Guardsmen their States could furnish for use in Mexico.

Boise, Idaho, March 11.—Idaho has 1,000 men and 50 officers fully equipped, adequately trained, and ready for active campaign duty. Moses Alexander, governor.

Phoenix, Ariz., March 11.—Arizona in the event of war could quickly bring its present National Guard, approximately 800, up to full regimental strength, through enlistment of many reserves and others who have volunteered. It would thus be possible to send, if necessary, a full regiment fairly well equipped for campaign duty.—George W. Hunt, governor.

Cheyenne, Wyo., March 11.—This State has 600 National Guard troops completely equipped, and has partial equipment for a full regiment.—John B. Kendrick, governor.

Jefferson City, Mo., March 11.—The service of the entire National Guard of Missouri was tendered to the War Department today for duty in Mexico. We can furnish 1,500 troops, and are equipped, and organized in strict conformity to the regular army, on twenty-four hours' notice. The entire National Guard of Missouri, every officer and man, has volunteered for this service.—John B. O'Mear, adjutant general.

It is well that intervention come, then we will see who gets the most hide.

"The negroes are all ready to side with us. I did not want history to record our side as the offender, but the cowardly has left us with the regular army, on twenty-four hours' notice. The entire National Guard of Missouri, every officer and man, has volunteered for this service.—John B. O'Mear, adjutant general.

"If you return, you will be the last American to ever leave my territory alive."

"From this moment on I will devote my life to the killing of every gringo I can get my hands on and the destruction of all gringo property."

"You say you are from Cananea. Well, when I reach there, with oil I will burn each mine; with dynamite I will destroy each bit of machinery; I will burn each house and I will annihilate all gringos."

"My general, bring back the artillery; take it down there and turn it loose on those — in Douglas. Put these four — in front of our infantry."

"It is well that intervention come, then we will see who gets the most hide."

"The negroes are all ready to side with us. I did not want history to record our side as the offender, but the cowardly has left us with the regular army, on twenty-four hours' notice.
